

Your gateway to alcoxy technology: the unique MBA 10B offer

Bluestar Silicones. Delivering Your Potential.

BLUESTAR
SILICONES

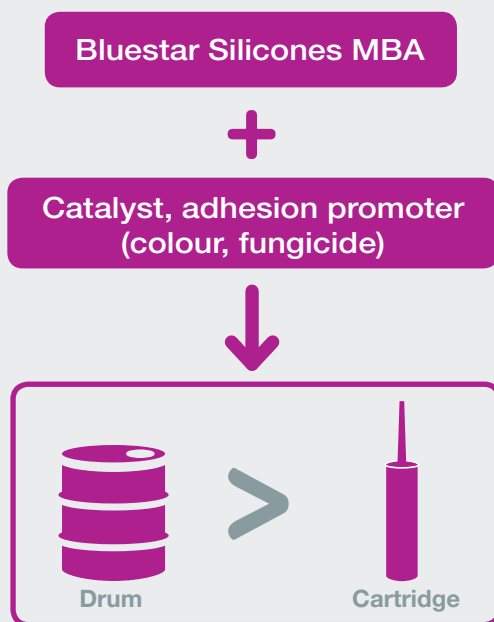

Semi-finished and finished product

Main offers in the market today are raw materials and finished sealants. Bluestar Silicones offers an innovative option: a semi-finished product, the Masterbatch 10B (MBA 10B).

The MBA 10B

is a semi-finished product in which Bluestar Silicones has already incorporated the proprietary alcoxy functionalization technology. It is a formulation containing all ingredients except: the catalyst, the adhesion promoter, the colour and the fungicide. The MBA 10B is a stable and versatile precursor to a sealant!

Unique technology

Benefits

Easy access to Alcoxy Technology. All the expertise is already in the MBA.

- | | | |
|------------------------|---|--|
| Shelf life | → | It starts at your site, when you decide to process the MBA. |
| Freedom of formulation | → | You choose the colours and the additives you want to add to the alcoxy technology. |
| Easy storage | → | Easy to store and to deal with inventory management (only 1 item to store) |

Whatever you want Whenever you need
